Brian spoke about the Parks Department Programs. If we would participate in some of the programs, it would help us recruit new members and may help with assistance in the airfield.

We could have a Program with the Parks Department regarding model airplanes.

We need kits of trainers/sport aircraft or planes ready to fly and/or planes that need very minor work (emphasis *minor* work). Also needed are transmitters/receivers/batteries/servos, covering material, hand tools, surface hardware, heat irons, small electric tools and any other items that can get these kids started. **NO JUNK PLEASE!**

Also needed are club members who would be willing to be flying instructors and a club member to organize the activities.

Some of the club members have already offered to help the young adults with the building of the aircraft.
