### **Safety**

Terry advised the Club that he witnessed one of our fliers taking their plane over the entrance road to the Northeast. Terry did remind the flier that flying over the road is not allowed. Please, all, remember this.

### **First Saturdays Flying Events - Results**

Duane reported that there were only 2 T-28 competitors on Saturday, and only 1 Reno racer. Combat had 3 competitors once Duane lashed a ribbon to his T-28 racer.....AND HE HAD A CUT!!!! GO T-28's!

One of the members brought to the attention of the Club that there has been a marked decrease in competitors for all events. It was recommended that we review the year's competition to see if the program should be continued or if we should forego competition and have it as open flying.
