Treasurer's Report

Floyd presented the club's current financial statement for August.

- President asked for a motion to approve them
- Motion by KC Second by Tom
- Treasurer's report was approved by the members in attendance.

General Announcements:

KCPD is still working on a new contract to repair or replace the damaged field gate. No estimate, or update as to when yet. Kc noted that we won't see any progress until the new budget in Oct.

The EAA Young Eagle build: EAA Young Eagle Coordinator Trish Williams has cancelled the YE build for this year. She is planning on doing one next year if possible.

Safety: Keep up the good work, we've had a really safe year so far. Remember to place your cards on the board when flying.

Competition Results September Competition Saturday has been posted to the web site.

Regional Events

Only one First Saturday Competition remaining for this year, Oct 3rd.

Field Maintenance: Recently mowed the Control line area due to weed interference with the lines. No mowing scheduled as of now. Probably one more mow this season before the weather

goes bad. KC noted that we need to repair the failing runway patches while the weather is still good. He will schedule that soon, will need a host of volunteers to make quick work of the repair as most patches are in need of fixing. KC also noted that he would like to get the Club's brush hog out and tend to the Skotchbroom at the north end of the runway and would like some help with the brush hog when he schedules that.

Old Business:

None.

New Business:

It was noted sani-can in need of service, Floyd to check on that. The question was asked if Hoops could be put up for Quads to use. Those present agreed that as long as they were put up for that session and then taken down each time it was okay. But, nothing permanent as it would interfere with field maintenance.

Show and Tell: Be sure to check out Brian Campbell's list of RC stuff he is clearing out his hangar for good.

Comments from the Membership: It was asked if there would be a winter build this year.
